Education

Computer Science

Saint-Petersburg University of Information Technologies, Mechanics and Optics

Work Experience

StratoBytes LLC | 2026–Present

Lead Software Architect & Full-Stack Engineer

Architected and developed a comprehensive CRM platform for small businesses from the ground up. Designed and implemented all core components, including customer and staff web applications, embeddable website widgets, backend services, REST APIs, billing and subscription management, CI/CD pipelines, infrastructure automation, monitoring, and operational tooling. Responsible for the platform's overall technical architecture, scalability, security, and DevOps processes.

Prosto-r LLC | 2017–2026

Senior Full-Stack Developer

Enhanced the performance, reliability, and maintainability of the company's ERP and CRM systems. Designed and developed a centralized advertising campaign management platform that streamlined contextual advertising operations. Built a multi-tenant SaaS messaging and notification platform supporting multiple domains and communication channels (Node.js, PHP, Sockets).

Led the development of the company's new corporate website (Node.js, Gulp, SSG).

Provided ongoing development, maintenance, and technical support for client websites and web applications built on a wide range of frameworks and platforms, including Laravel, Yii, CodeIgniter, WordPress, MODx, and Bitrix.

Field of View LLC | 2002–2017

Software Engineer / Technical Lead

Designed, developed, and maintained a large-scale B2B and B2C digital ecosystem for a leading regional company, supporting business operations and customer services for more than 15 years.

Delivered many commercial web platforms, including residential rental services, commercial real estate marketplaces, and corporate web properties.

Created a scalable video-sharing platform and engineered a global online radio service, including custom streaming and broadcasting infrastructure.

Developed native mobile applications for major platforms using Java and Swift.

Designed and delivered hundreds of websites, promotional microsites, and digital marketing assets for a diverse range of clients.
